The certificate of title (also known as a "car title") is a legal document that establishes ownership of a vehicle in the United States. Vehicle titles are "branded" to note certain events in a vehicle's history, such as various types of damage, mileage rollbacks, warranty events, and more.

Junk, Salvage or Insurance

Record found

Entity	Details	Export
IAA	Junk and Salvage / Vehicle state: To be determined Date: 06/24/2021 VIN: 1C4RJMDX8KD476700	No
PENNSYLVANIA NATIONAL MUT CAS INS CO	Insurance Date: 09/03/2021 VIN: 1C4RJMDX8KD476700	No

Explanatory Note:

If this VIN has a record in the **Junk/Salvage or Insurance information** then the business that submitted the VIN to NMVTIS deemed the vehicle to be either a junk, salvage, or in the case of an insurer, a total loss. The information in the **DISPOSITION** field in the Junk/Salvage section denotes what has happened to the VIN (i.e., vehicle) since it came into the possession of the business.

Damage

This section helps you understand whether the vehicle was damaged or inspected for damage, along with recorded cost estimates (if available).

Disclaimer: Most damage entries are related to traffic accidents, but not exclusively. Some entries may end up on the report for different reasons, such as damage assessments, auctions, vehicle inspections, repairs and other similar events, actions or circumstances. Entries like these may indicate, for example, that the vehicle was inspected and assessed at an authorised service centre, or that repairs, warranty service, diagnostics, vehicle inspection or other similar services were performed. These vehicle inspections or assessments may be done due to damage caused during a traffic accident, but also for other reasons, such as legal requirements and/or processes, information published by the manufacturer, warranty or non-warranty repairs, correction of poorly performed repairs, or damage not related to traffic accidents (e.g. theft, mechanical damage, etc.). It is important to note that such entries do not necessarily indicate the consequences of a traffic accident – they may also be related to the use, maintenance or operation of the vehicle in accordance with the requirements and circumstances set by the manufacturer or third parties.

Damage Glossary

Damage
Damage refers to any physical harm or loss sustained by a vehicle, such as scratches, dents, or broken parts. It can result from accidents, weather, theft, or other incidents and may affect the car's appearance or performance.

Estimated Repair Cost
Once an incident related to a vehicle is assessed, damage data providers calculate the repair cost and present it in the currency of the country where the damage was evaluated. Therefore, this may not align with your expectations. The reasons for this may include:
The country or state where damage to the vehicle was assessed may have higher/lower servicing costs compared to your country (spare part prices and labor prices differ between countries)
The cost is calculated for repairs at an official service station (which is typically on the expensive end)

Natural disasters

Has the vehicle's location been recorded in the area of a natural disaster?

No issues found
Vehicle's location was not recorded in the area of a natural disaster

Market value

How much was the vehicle sold for in the past? What is the price of vehicles of this year and model on average?

Note

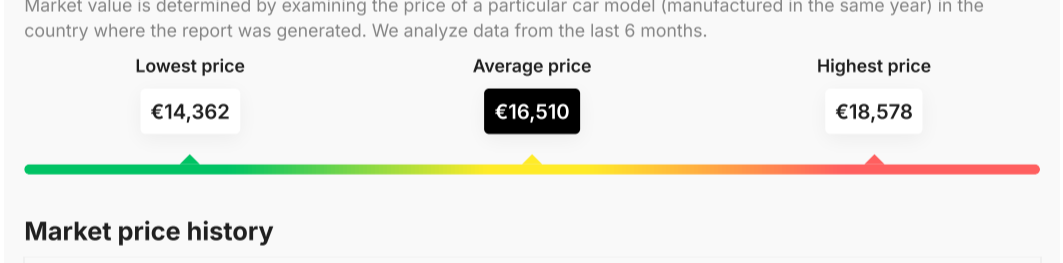

- Last known selling price: €13,000
- Average market price for such vehicle: €16,510
- Be cautious of hidden issues if the vehicle was on sale for significantly less than the current price!

CARVERTICAL
